Mrs. Julia Rosenfeld, President Ho-Ho-Kus HSA
Facility Applicants, and
Contractors of Record

FROM: Thomas Duane, Business Administrator/Board Secretary

DATE: August 2018

RE: Annual Notification Letter

The Asbestos Hazard Emergency Response Act (AHERA) 40 CFR 763 requires all schools from Pre-K to Grade 12 to conduct inspections to determine if they contain asbestos-containing building materials (ACBM). If they do contain these materials, the ACBM must be categorized according to the type of material, its location, current damage, and its potential for future damage. Also, a detailed Asbestos Management Plan must be developed. The Management Plan details the inspection findings, and outlines the response actions the School Board intends to implement.

To accomplish these goals, the School District now has on file at the school and in the District Office a NJ State Department of Health approved Asbestos Management Plan for the school facility. The provisions of the plan are being implemented in a timely and on-going fashion. It is your Board's desire to provide a safe and healthy facility for all students, employees and visitors.

The purpose of this letter is to satisfy the requirements of AHERA for written notice of the availability of the Management Plan for review. Should you desire, please contact Dr. Alexis Eckert for further details.

Since the last written notice, there have been no Asbestos removal projects. The School Board performed the 3-year re-inspection in February 2016 and the 6-month surveillance in August 2018 as required by the AHERA regulations.
